EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Applicant's representative Edward J. Kessler on October 25, 2007.

The application has been amended as follows:

In the claims:

- (1) In claim 1, line 8; the word "using" has been changed to -- **reusing**--.
- (2) In claim 8, line 9; the word "using" has been changed to -- **reusing**--.

Allowable Subject Matter

2. **Claims 1-14** allowed.
3. The following is an examiner's statement of reasons for allowance:
4. **Claims 1 and 8** are allowed because the closest prior art, Azenkot et al. (US Patent Number 7,050,419), fails to anticipate or render obvious the concept reusing the S-CDMA parameters to define TDMA minislot size, in combination with all other limitations in the claim (s) as defined by applicant.

Azenzot et al. disclose that S-CDMA parameters are used to define the frame boundaries of S-CDMA and TDMA burst which are mixed and sent on the same subchannel, defined as minislot mapping, but does not reuse the S-CDMA parameters to define TDMA mini slot size.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
